Mounted Table of Bottles  
(close enough to Microphone to be amplified)

The diagram shows a top-down view of a microphone array, represented by a series of small circles, positioned to the left of a table. The table is labeled 'Mounted Table of Bottles' and contains several square-shaped bottles. A diagonal line separates the microphone array from the table, with a note '(close enough to Microphone to be amplified)' indicating the proximity of the bottles to the microphones.

Optional Mic 2
